ABOUT STOLTZFUS MINERAL SUPPLY

Welcome to Stoltzfus Mineral Supply, a family-owned and operated business with a rich legacy rooted in service, integrity, and a passion for animal nutrition, soil improvement, and household products. Our journey began back in 1969 when Leon Hess established what would eventually evolve into Stoltzfus Mineral Supply.

In 2011, our father, John Stoltzfus, took the reins of the business, driven by the same visionary spirit that guided its inception. Under his guidance, the business not only thrived but underwent a remarkable transformation. Within just a few years, Stoltzfus Mineral Supply experienced a remarkable 10x growth, a testament to John's unwavering dedication and strategic decisions.

We took the mantle in September 2022, continuing our family's commitment to the values and principles that have shaped our journey. As Dave and Matt Stoltzfus, we bring our unique skills and expertise to the table, ensuring that Stoltzfus Mineral Supply remains a beacon of quality, innovation, and customer care.

Our Philosophy

At Stoltzfus Mineral Supply, we believe that the health of animals, the fertility of the soil, and the well-being of households are interconnected aspects that deserve the utmost attention. Our products are carefully selected to support these fundamental aspects of life. From our roots in animal health and soil improvement to our range of exceptional household solutions, every product we offer reflects our deep-seated commitment to enhancing lives.

Our Approach

Education is at the heart of what we do. Just as John Stoltzfus once did, we're dedicated to helping you understand the benefits and applications of our products. Our mission is to empower you with knowledge, enabling you to make informed decisions that positively impact your animals, land, and home.

Quality and Innovation: We stand behind the quality of our products. Through partnerships with trusted brands like Redmond Minerals and Yoders Nutrition, we ensure that every item we offer meets the highest standards of excellence. Our commitment to innovation drives us to continually seek new and effective solutions that align with your evolving needs.

Meet the Team

Dave Stoltzfus: As our ordering and logistics manager, Dave ensures that your experience with Stoltzfus Mineral Supply is seamless from start to finish. With a keen eye for detail, Dave also manages sales and invoicing, ensuring accuracy and efficiency.

Matt Stoltzfus: Matt is our advertising and accounting guru, bringing a creative edge to our operations. He's not just behind the scenes—Matt also hits the road as our charismatic salesman, sharing our products and knowledge with you firsthand.

Our Future

With the same unwavering commitment that inspired our journey, we look ahead with excitement. Our recent expansion with an additional warehouse underscores our dedication to efficiency and service. As we explore new horizons and possibilities, our core values remain the guiding force behind everything we do.

Join us in our mission to foster healthier animals, more fertile soil, and happier households. Experience the legacy, expertise, and care that define Stoltzfus Mineral Supply.

Thank you for being a part of our story.

Sincerely,

Dave & Matt Stoltzfus, Stoltzfus Mineral Supply

ANIMAL MINERALS

We have a full line of minerals for all species of livestock. Let us talk to you about what your needs are. We'd love to hear what you are looking for from a mineral program and supply you with a great one.

REDMOND AGRICULTURE / DAIRY & BEEF MINERALS

BLOCK MINERALS

44 lb Natural Block–Redmond Natural Block is nature's perfect balance to nourish your livestock. Selenium 30 Block–Redmond Selenium 30 Block is made from our premium trace mineral sea salt and fortified with 30ppm selenium.

Selenium 90 Block–The Redmond Selenium 90 Block is made from our premium trace mineral sea salt and is fortified with 90ppm selenium.

Iodized Block–Iodized Block Redmond Iodized Block is fortified with 200 ppm iodine from ethylenediamine dihydriodide and is stackable, easy to handle, and economical.

Added Trace Mineral Block–Redmond Added Trace Mineral Block has added levels of copper, manganese, cobalt, iodine, and zinc.

Custom Order–Our premium sea salt can be custom mixed according to customer specifications.

BAG MINERALS

Custom order–Our premium sea salt can be custom mixed according to customer specifications.

10 Fine–Redmond 10 Fine is a premium sea salt with naturally occurring essential trace minerals including zinc, manganese, copper, iodine, and more.

4 medium–Redmond 4 Medium Fine is a premium sea salt with naturally occurring essential trace minerals including zinc, manganese, copper, iodine, and more.

Selenium 30–Selenium 30 is fortified with added selenium (30ppm), copper, manganese, cobalt, iodine, and zinc.

Selenium 90–Selenium 90 is a premium sea salt with naturally occurring essential trace minerals. Selenium 90 is also fortified with added selenium (90ppm), copper, manganese, cobalt, iodine, and zinc.

High Iodized–High Iodized is fortified with added 1500 ppm Iodine.

Conditioner–If there is one Redmond product we would not do without, it would be Redmond Conditioner. Conditioner is for all classes of livestock and has been used for generations on many herds.

TOTE ONE-TON BAGS

SR 50-Redmond SR 50 is made from a blend of 1:1 Redmond Conditioner and premium natural sea salt, SR 50 can nourish livestock with a broad spectrum of trace minerals.

SR 50 - MVP-Redmond SR 50-MVP is made from a blend of 1:1 Redmond Conditioner and premium natural sea salt and an added mineral and vitamins package.

Sr 65-Redmond SR 65 MVP is made from a 2:1 ratio of Redmond Conditioner and premium natural sea salt.

SR 65 - MVP-Redmond SR 65-MVP is made from a 2:1 ratio of Redmond Conditioner and premium natural sea salt with an added mineral and vitamin package.

GOAT MINERAL

GOAT MINERAL Rock on a ROPE-Goat Mineral Rock on a Rope is a premium sea salt with naturally occurring essential trace minerals.

Goat mineral mix 5lb-Goat Mineral Mix is a premium sea salt with naturally occurring essential trace minerals. This mix is also fortified with selenium (60 ppm), manganese, cobalt, copper, iodine, zinc, and vitamins A, D, and E.

Goat Mineral Mix 25lb-Goat Mineral Mix is a premium sea salt with naturally occurring essential trace minerals. This mix is also fortified with selenium (60 ppm), manganese, cobalt, copper, iodine, zinc, and vitamins A, D, and E.

BISON MINERAL

Bison 90-Mineral consumption for bison is often a challenge. Bison 90 is a sweetened premium mineral salt with over 60 natural minerals and bison love it. Bison 90 has 90 ppm of added selenium, copper, manganese, cobalt, iodine, and zinc. Several of the most respected bison herds in North America are on this mix.

SR 65: PREMIUM FARMING MINERALS
from REDMOND

What Makes Redmond Minerals Special?
Not all soil amendments and mineral supplements are created equal. All Redmond products are harvested from an ancient sea and bentonite clay deposit in central Utah. This unique mineral source is the foundation for life nourishing products enjoyed by plants, livestock, and humans alike. Our mineral salts and bentonite clay are harvested and packaged in separate operations, but we are also proud to offer many blended mixes of these two rare and rich resources.

SR 65
All natural soil amendment and livestock supplement

35% Mineral Salt

Redmond's mineral salts contain 60+ trace minerals perfectly balanced by nature...the Earth's ultimate health elixir. Our expansive mineral profile has many proven health benefits for soil, plants, and animals and has been used by farmers for over 50 years. These minerals are naturally blended within a mix of nourishing chloride salts.

65% Clay Conditioner

Clay particles naturally attract and store certain substances from their environment. Redmond's bentonite clay has attracted an expansive profile of trace minerals from its deep sea deposit neighbor. These minerals are stored in the clay particles, ready to be released into the soil or living body where they are applied.

SR 65 for Soil Health

Apply dry or as a foliar spray to your land for more resilient, productive, nutrient dense, and delicious plants.

Mineral Salts

- Increases the electrical conductivity in the soil (which in turn, stimulates soil based microbial colonies)
- Contains over 60 trace minerals in a crystalline form that is easily accessible and highly available to plants
- Improves plant taste, palatability, and nutrient density
- Provides crucial minerals needed for photosynthesis, nitrogen utilization, and other important biological and chemical systems in the soil, root zone and bodies of plants

Clay Conditioners

- Improves soil's ability to store and release water and nutrients (also known as cation exchange capacity) which helps reduce shock and make plants more stress tolerant
- Stimulates soil enzymes and nourishes a healthy microbe environment
- Offers an expansive and balanced mineral profile of over 60 trace minerals

SR 65 for Livestock Health

Effective mineral supplement for all classes of livestock that provides many health boosting advantages to your animals.

Mineral Salts

- High salt to mineral ratio means no more coaxing stubborn animals to eat their minerals. Animals love Redmond and choose it every time over low salt/heavy mineral mixes.
- Replenishes needed electrolytes that reduces heat stress
- Contains 60+ trace minerals that improve overall animal health, leading to happier and more productive animals (fear-digestion)

Clay Conditioners

- Rich, bentonite clay particles contain Redmond's expansive mineral profile
- Binds to mold and other harmful toxins that can sometimes be found in feed, forage, or silage
- Promotes digestive health, especially in ruminants (buffers rumen pH, maintains healthy ammonia levels, and improves fiber-digestion)
- Increases feed efficiency by helping your animals get more of what they naturally need out of their food intake

Nature Has It Right
Both you and your animals will enjoy using products free of chemical processing, and are harvested and packaged direct from nature. Need custom formulations for deficient areas? Redmond offers custom mixes to meet your operation's exact needs.

HOW TO FEED REDMOND TO YOUR ANIMALS

Granular Products		
Product	Description	Feeding Directions
10 Fine	Fine salt granules	Free-choice, ration mixing
10 Fine with Garlic	Helps repel flies, ticks, and biting insects	Start 2-3 weeks before fly season
4 Medium	Medium salt granules	Free-choice, ration mixing
Selenium 90	Redmond salt + 6 trace minerals including 90 ppm Selenium	Free-choice, ration mixing
High Iodized	For pink eye	Free-choice during troubled times
Cattleman's PFS	For pink eye, foot rot	Free-choice during troubled times
Mineral Conditioner	Higher levels of each mineral, toxin binder, buffering agent	Free-choice during troubled times
SR 65 / SR 50	Conditioner + Salt SR 65 = 65% Conditioner SR 50 = 50% Conditioner	Free-choice, best mixed in rations
SR 65 / SR 50 MVP	Same Conditioner + Salt ratios as above plus fortified with vitamins and minerals	Free-choice, ration mixing

Block Products		
Product	Description	Feeding Directions
Natural	Redmond Salt	Free-choice at all times
Natural with Garlic	Helps repel flies, ticks, and biting insects	Start 2-3 weeks before fly season
Added Trace Mineral	Added copper, manganese, cobalt, iodine, and zinc	Free-choice at all times
Selenium 30	TM + 30 ppm selenium	Free-choice at all times
Selenium 90	TM + 90 ppm selenium	Free-choice at all times
Iodized	For pink eye	Free-choice during troubled times
Sulfur	Added levels of sulfur (3%)	Free-choice at all times
Cobalt Iodized	Added levels of iodine + cobalt	Free-choice at all times
Bison 90	Added selenium, copper, cobalt, manganese, iodine, zinc, molasses	Free-choice at all times

SPECIES FEEDING GUIDE

dairy cattle
grain fed
Salt: 4-8 oz. per head per day and/or free choice
Conditioner: 4-8 oz. per head per day

breed cattle
Salt: 2-4 oz. per head per day and/or free choice
Conditioner: 2-4 oz. per head per day

smaller cattle
Salt: Add in proportion to body size or free choice
Conditioner: 2-3 oz. per head per day

sheep + goats
Salt: 25 - 50 oz. per head per day or free choice
Conditioner: 0.5 - 1 oz. per head per day

swine + poultry
Salt: .5% of total feed
Conditioner: 1% of total feed (20 lbs/ton)

MORE FEEDING TIPS

REDMOND EQUINE

We love horses, so we understand that when your horse feels good, you feel good. We provide natural, effective products that let you focus on what you love about your horse without worrying about their health.

Core Values

These four core values embody our culture, spirit and dedication to why we do what we do. They keep us aligned and help us make decisions about everything from the way we do business to the products that we pursue.

CONNECTION

It's a special moment when you look into your horse's eyes and feel that connection. You'd do anything for him. If you've never owned one, you'll never understand.

COMMUNITY

Our community is your community. We share a passion and understanding for horses. We believe we are improving life as we share our ideas, experiences, and products with our community.

EXPERIENCE

Our horses allow us to explore the outdoors with those we love, and experience places others may never see. We have formed relationships on the trail, strengthened family ties, and made lasting memories with our horses and those we love.

QUALITY

We produce products we believe in. Products that cultivate a holistic balance in your horse. Our products are horse-approved, and we will always stand behind them. Guaranteed.

PRODUCTS

DAILY GOLD® - STRESS RELIEF

NATURAL DIGESTIVE SUPPLEMENT & STRESS RELIEF FOR HORSES

Did you know poor digestion is linked to equine behavior? Digestive pain increases stress and anxiety and decreases your horse's ability to focus. Provide gastric support for your horse and all-natural stress relief with Daily Gold! Our healing bentonite clay improves gut microbiome, alleviates ulcer symptoms, diarrhea and other common digestive issues, helping horses get the most nutritional value from everything in their diet. It's a gentle and smart addition to any feed program!

DAILY GOLD® STRESS RELIEF SYRINGE

NATURAL HORSE CALMER

Does your performance horse get stressed before events? Naturally treat anxiety in horses with the Stress Relief Syringe. Our bentonite clay paste buffers acid, soothes digestive upset, and relieves acute pain from equine ulcers. Use Daily Gold to help your horse feel relaxed, focused, and ready to perform its best in every situation.

DAILY RED® FORTIFIED - VITAMIN & MINERAL SUPPLEMENT FOR HORSES

FORTIFIED HORSE MINERALS

Empower your horse with balanced nutrients that promote a satisfied mind and healthy body. Mined sea salt, 60+ natural trace minerals, and Daily Red's boosted vitamin and mineral package support horses in every life stage. Hydrate and sharpen horses' focus and performance with Daily Red!

DAILY RED® FORTIFIED GARLIC - VITAMIN & MINERAL SUPPLEMENT FOR HORSES

FORTIFIED HORSE MINERALS + NATURAL FLY REPELLENT

Empower your horse with balanced nutrients and provide relief during fly season with Daily Red Garlic. Mined sea salt, 60+ trace minerals, and a boosted vitamin and mineral package support health and hydration, while garlic naturally repels pesky insects. Hydrate, sharpen performance, and provide all-day pest protection with Daily Red Garlic!

REDMOND ROCK™ CRUSHED™ - EQUINE MINERALS

LOOSE MINERALS FOR HORSES

Is your horse ignoring his lick and showing signs of dehydration or mineral and salt deficiency? Redmond Rock Crushed loose sea salt is packed with trace minerals and electrolytes to encourage your horse to drink and naturally bring him into mineral balance.

REDMOND ROCK™ CRUSHED™ - GARLIC

NATURAL FLY & TICK REPELLENT FOR HORSES

Bites and stings from pests stress your horse and can turn into painful sores. Help your horse stay comfortable during fly season with Redmond Rock Crushed with Garlic! It naturally repels flies and ticks on horses and delivers 60+ trace minerals and electrolytes to support better health and hydration. Crushed with Garlic is natural nutrition and fly control you can feel good about giving your horse.

REDMOND ELECTROLYTE

FAST-ACTING ELECTROLYTES FOR HORSES

Electrolytes play a critical role in horse hydration—but they're also involved in nearly every other physiological function! Keep your horse hydrated, improve energy levels, and boost performance with fast-acting Redmond Electrolyte. It triggers your horse's thirst while rapidly replenishing equine electrolytes lost through heat, sweat, exertion, or nervousness. Electrolyte paste is safe and recommended for horses in every discipline.

REDMOND ROCK® ON A ROPE - EQUINE MINERALS

HANDY HORSE SALT LICK

Looking for a more versatile salt lick for your horse? It doesn't always make sense to keep your horse's salt lick on the ground. Redmond Rock on a Rope provides the same trace minerals and equine electrolytes as original Redmond Rock—but on a handy rope.

REDMOND ROCK® - EQUINE MINERALS

NATURAL HORSE SALT LICK

Is your horse dehydrated or depleted of salt and essential trace minerals? Redmond Rock is a great alternative to salt blocks. It's packed with minerals and electrolytes to hydrate horses and bring them back into healthy mineral balance. Nourish your horse and help her thrive with natural Redmond Rock.

REIN WATER® - HYDRATION FOR HORSES

EQUINE ELECTROLYTE DRINK MIX

Does your horse stop drinking or become dehydrated when hauling or away from home? Rein in dehydration with Rein Water! Horses love the natural taste of our thirst quencher. It adds electrolytes and trace minerals to water and helps horses stay hydrated at home or on the road.

RED EDGE - EQUINE POULTICE

BENTONITE CLAY POULTICE FOR HORSES

Looking for a natural solution to reduce swelling in your horse's legs? Draw out inflammation and swelling with Red Edge equine poultice. Redmond bentonite clay keeps legs cool and tight before exercise and reduces swelling and soreness after. Give your horse the leading edge with Red Edge.

FIRST AID FOR HORSES

NATURAL WOUND CARE FOR HORSES

Is your horse suffering from painful bites, sores, cuts, or burns? Redmond First Aid clay heals superficial horse injuries by sealing wounds, drawing out infection, repelling flies, and preventing proud flesh. Make First Aid your first choice for natural healing.

GOAT MINERAL

5lb and 25lb Goat Mineral Mix

At Redmond Agriculture, we understand that when your animals feel good, you feel good. That's why we offer our Goat Mineral Mix—a premium sea salt with naturally occurring essential trace minerals. This mix is also fortified with selenium (60 ppm), manganese, cobalt, copper, iodine, zinc and vitamins A, D and E. The salt in our Goat Mineral Mix is free of chemical processing, preferred by livestock, and helps animals maintain a normal function. It is stocked in 5 lb and 25 lb bags.

Redmond Goat Mineral Mix's granules are the perfect size for mixing or feeding free choice.

Rock on a Rope Goat Mineral

Goats nibble on EVERYTHING but not usually the minerals they need. No need to worry, goats love this stuff.

CREEKSIDE FARMS PRO-GROWER

Pro-Grower is made from 100% natural rice bran which is made for human consumption.

This is why Pro-Grower provides the highest all natural source of vitamins, minerals, oil and amino acids which make it cost effective and very easy to feed.

The Benefits Of Pro-Grower

The most important benefit rice bran provides is high vegetable fat which your horse can easily digest. Horses get very little fat from alfalfa, grass hay and from most grain. This makes high fat Pro-Grower the answer to your horse's nutritional needs. ProGrower's high fat gives 2.25 times as much energy per unit of weight as do carbohydrates which means your horse would have to eat less to obtain needed energy to perform. This benefits young, old, pleasure and performance horses.

Stabilized 100% Natural Rice Bran

Pro-Grower is an all natural feed with no additives, fillers or chemical preservatives which make a 50 lb. bag a fully digestible feed. Raw rice bran has a very short shelf life. This means it has to be stabilized to eliminate potential microbiological problems. At "Creekside" Farms we use extrusion technology comparable to food grade. This means no chemical preservatives have to be used. This gives you, our valued customer, an all natural feed that provides your horse with the nutritional requirements to perform to its potential.

Guaranteed Analysis "Creekside" Farms Pro-Grower

A supplement for all classes of horses! Crude Protein, Crude Fat, Crude Fiber, Not Less Than 14.1%, Not Less Than 16.8% ,Not More Than 6%. Gamma Oryzanol is a natural component of rice bran oil. It has been shown to be an antioxidant. Horses, like other animals, utilize antioxidants to help protect cell membranes from damage which can occur during exercise. Ingredients -100% Rice Bran. All Natural Rice Bran Stabilized By Extrusion Technology. Comparable to food grade Pro-Grower has a shelf life of at least 1 year. So you can feed your horses with confidence knowing that you have the highest quality feed at a competitive cost.

SOIL PROGRAM

TRY OUR PERSONALIZED SOIL MINERAL PROGRAM TO LET YOUR SOIL WORK FOR YOU TO HAVE BETTER YIELD, SOIL HEALTH, DISEASE, AND PEST RESISTANCE.

SR-65-Redmond SR 65 is made from a 2:1 ratio of Redmond Conditioner and premium natural sea salt.

SR-50-Redmond SR 50 is made from a 1:1 ratio of Redmond Conditioner and premium natural sea salt.

WHY APPLY REDMOND SALT?

- Ability to transfer an electrical charge (energy) to the life in the soil (Electrical Conductivity, (EC).
- Provides 60+ minerals in a crystalline, highly available form which will move into the cells of a plant resulting in optimum quality.
- This perfect balance of minerals from nature contains 57% sodium, 36% chloride, and 7% other major, secondary, micro, and rare earth minerals.
- Improved taste or palatability of a plant
- Sodium and chloride are essential for photosynthesis and nitrogen and manganese utilization in a plant.

Uniquely, Redmond Salt's minerals and salinity levels are nearly identical to the proportions you'd find in the blood of healthy livestock. We like to describe this ratio as mother nature's formula for ideal plant, animal, and human health.

WHY APPLY VOLCANIC ASH CLAY CONDITIONER?

- Increases the soil's ability to store and release minerals and water (Cation Exchange Capacity – CEC)
- Delivers the highly available colloidal form of 5% available calcium, 15% available silicon, and nature's perfect balance of 60+ other available major, secondary, micro, and rare earth nutrients
- Provides a protected habitat for rhizobia bacteria which form root nodules and create nitrogen for legume plants
- Increases the amount of enzyme activity in the soil which improves residue decomposition and mineral availability
- A foliar application can complement the dry application and is beneficial to apply during times of mineral deficiencies due to stresses such as drought conditions or too much rain.

Redmond 10 Fine—a premium sea salt with essential trace minerals including zinc, manganese, copper, iodine, and more.

10 Fine is organic, preferred by livestock, and helps animals stay healthy. 10 Fine's mineral-rich granules are the perfect size for mixing or feeding-free choice. 10 Fine can be used for all classes of livestock.

SOIL MINERAL

TRY OUR PERSONALIZED SOIL MINERAL PROGRAM TO LET YOUR SOIL WORK FOR YOU TO HAVE BETTER YIELD, SOIL HEALTH, DISEASE, AND PEST RESISTANCE.

WHY APPLY REDMOND SALT?

- Ability to transfer an electrical charge(energy) to the life in the soil (Electrical Conductivity, (EC).
- Provides 60+ minerals in a crystalline, highly available form which will move into the cells of a plant resulting in optimum quality.
- This perfect balance of minerals from nature contains 57% sodium, 36%chloride, and 7% other major, secondary, micro, and rare earth minerals.
- Improved taste or palatability of a plant

- Delivers the highly available colloidal form of 5% available calcium, 15% available silicon, and nature's perfect balance of 60+ other available major, secondary, micro, and rare earth nutrients
- Provides a protected habitat for rhizobia bacteria which form root nodules and create nitrogen for legume plants
- Increases the amount of enzyme activity in the soil which improves residue decomposition and mineral availability

A foliar application can complement the dry application and is beneficial to apply during times of mineral deficiencies due to stresses such as drought conditions or too much rain.

FOLIAR RATES FOR LARGE AREAS

Redmond Salt – 3 to 5 lbs/acre applied up to 4 times during a growing season. Stir into the water the day before application. Take the liquid off the top and leave the sediment behind so it doesn't plug into the spray system.

Redmond Conditioner – 6 to 10 lbs/acre repeated up to 4 times during the growing season. Stir and let it sit the day before the application. Take liquid off the top same as the salt. This will have a lot of sediment. The sediment of both products can be spread over the soil.

BEAR RIVER ZEOLITE

AGRICULTURE USE

Clinoptilolite zeolite mineral has been used for years in animal feed as a flow agent and to increase the durability of pellets. Livestock research with clinoptilolite zeolite inclusion in feed has shown positive results in the colonization of beneficial micro-organisms, pH reduction, and overall health benefits.*

The high cation-exchange capacity allows it to capture ammonium, which inhibits the development of odor from ammonia in confinement systems, composting, and anaerobic digestion. When applied to the soil, nitrogen (ammonium) held in clinoptilolite zeolite is gradually released to support plant growth, conserve nitrogen, and minimize groundwater contamination.

Soil Quality • Odor Control • Flow Agent • Carrier • Filtration • Desiccant • Pozzolan • Remediation

BRZ™ high grade natural clinoptilolite zeolite, direct from our mine in Preston, Idaho, USA

BEAR RIVER ZEOLITE (BRZ™) is 85 to 95% pure

natural clinoptilolite zeolite and contains:

Approximately 3.5% potassium, a plant nutrient

Approximately 2.02% calcium, a pH buffer for animals and soils

Less than 0.5% non-water soluble sodium, a toxin to plants

No significant concentrations of water soluble toxic trace elements

Low clay content, making it hard and resistant to attrition

High CEC (cation exchange capacity) that allows loading of approximately 2.2% nitrogen

A large surface area of approximately 24.9 square meters per gram.

Clinoptilolite zeolite has the ability to hold nitrogen, adsorb mycotoxins, moderate pH, absorb moisture, and

act as a carrier, giving it a broad range of applications in agriculture. Research studies show benefits for feed production, livestock health and growth, soil quality, crop production, management of waste and the environment.

Crops

The use of BRZ™ in soil increases root and shoot growth by holding nitrogen in the root zone and gradually releasing it to the plant for better utilization. This ability to hold nitrogen also reduces the amount of fertilizer needed to maintain healthy soil.

BRZ™ supplies potassium, supports micro-organisms beneficial to plants, and maintains moisture during dry periods to sustain growth.

NORTH ATLANTIC ORGANICS

Atlantic-Gro® Organic Kelp Meal (US Label)

This dried seaweed meal is composed of Laminariaceae (Kelp) and does not contain artificial additives, preservatives, fertilizers, pesticides, hormones, antibodies or genetically modified organisms (GMO). It is suitable for cattle, horses, hogs, hens, and sheep.

Animal Products

Dairy Cattle

Calves to 227 kg (500lb) 14g (1/2oz) head/day

Heifers 227-681 kg (500-1500lb) 28-56g (1-2oz) head/day

Dry Cows 56g (2oz) head/day

Transition or Close-up Cows 112-168g (4-6oz) head/day

Lactating Cows 84-112g (3-4oz) head/day during early lactation

168g (6oz) head/day during peak production

168-224g (6-8oz) head/day during periods of high stress

Beef Cattle

Brood Cows

Maintenance 56g (2 oz) head/day

Peak milk production 84-112g (3-4oz) head/day

High stress conditions 84-112g (3-4oz) head/day

Plant Products

Atlantic-Gro® Garden Mix

For garden use, till seaweed meal into soil at the rate of 450 grams (2 cups) per 9.3 square meters (100 square feet) and re-apply once per month for best results. For plants and ornamentals, use 30 grams (one tablespoon) per 15 cm (6 inch) pot. For larger field crop or nursery application, the user should conduct a soil/tissue analysis and seek the advice of an agronomist or a professional agricultural consultant prior to use.

Atlantic-Gro® Fertilizer

Atlantic-Gro® Fertilizer is recommended as part of a complete fertilizer program. This product is for the correction of a nutrient deficiency that relates to the fertility level of the soil. The user should conduct a soil/tissue analysis and seek the advice of an agronomist or a professional agricultural consultant prior to use.

ESSENTIAL NEW BORN CALF CARE PRODUCT

WE ARE PLEASED TO OFFER FIRST MONTH TO HELP GET AND KEEP YOUR YOUNG STOCK HEALTHY AND THRIVING

REDMOND-CALF-DFM-FIRST MONTH

SUPPORT IMMUNITY, REPLENISH ELECTROLYTES IN CALVES

Redmond First Month is a highly effective immune stimulator that can cut death losses, treat scours, reduce medical costs, and restore the health of your herd's next generation.

REDUCES CALF MORTALITY RATES

A study conducted by UC Davis School of Veterinary Medicine found that Redmond's smectite clay (used in First Month) reduced calf mortality rates by 63% (see graphic below). Redmond customers already love the results they are seeing:

NATURALLY TREATS SCOURS

As a calf scours treatment, First Month naturally corrects the acidosis, dehydration, and loss of energy and nutrients caused by scours:

- Alkaline content to buffer acidosis and balance pH levels;
- Replenishes lost electrolytes/salts;
- Smectite clays slow the digestive passage rate to allow for better nutrient and fluid absorption into the blood
- Replaces microbe strains that are stripped and killed off by scours

BOOSTS IMMUNE HEALTH

First Month helps protect calves when their immune system is at its most vulnerable. Our ingredients guard immune health in multiple ways:

- Redmond's clay conditioner has natural anti-microbial properties and inhibits pathogen growth without damaging beneficial bacteria;
- Mannan-Oligosaccharides (MOS) prevent harmful pathogens from attaching and colonizing in the intestines;
- A study by UC Davis School of Veterinary Medicine found that Redmond's smectite clay (used in First Month) increases immunoglobulin and mineral levels in the blood (see below)

FIRST MONTH

RESTORES NORMAL GUT FUNCTION

Redmond First Month helps calves continue to grow and achieve weights by restoring healthy gut function:

- Protects gut lining
- Slows digestive passage rate so fluids and nutrients absorb more readily
- Binds to harmful toxins so they can be excreted instead of absorbed
- Replaces and feeds beneficial digestive microbe colonies

HOW DO I USE IT?

First Month powder mixes right into the milk you'll be feeding the calf. Mix 4 grams (1 tsp) into 2 quarts of milk, colostrum, or replacer per calf and stir thoroughly. Feed twice daily.

Can also be used with electrolyte treatments for quicker recovery from scours.

We are not just distributors of great hunting food plot minerals, attractants, and minerals to build healthy wildlife. We are avid hunters. Let us share our experiences building a better hunting area to enjoy.

REDMOND HUNT

Trophy Rock

MINERALS FOR DEER

Trophy Rock is an all-natural sea salt mineral attractant that provides deer with 60+ trace minerals needed for optimum health and growth. Deer love and lick our mineral rocks year-round! Use it to attract and scout your herd year-round. With Trophy Rock, your deer receive the minerals they need, and you'll get healthier herds and bigger bucks. Try some today.

Liquid Trophy Rock

LIQUID DEER ATTRACTANT

Liquid Trophy Rock—a liquid deer product to attract, hold, and harvest big bucks. Set up an instant mineral site during spring and summer antler growth seasons, use it as a long-range attractant, or top it over Trophy Rock to activate your area faster. It's a product you don't want to miss using.

Four 65

SUPPLEMENT FOR DEER HEALTH

Four65 is a granular Trophy Rock deer attractant! It contains the same all-natural sea salt trace minerals deer need for optimal antler growth and health. Use it to successfully attract and scout your herd. Four65 provides deer with the essential minerals they need and grows healthier herds and bigger bucks.

THE #1 DEER ATTRACTANT ON THE MARKET!!

SCENT GUARD

We are proud to introduce a new product to help make your time hunting even more successful.

Scent Guard is a liquid concentrate scent eliminator. Other products cover your scent, we destroy it. Effective for all species and all climates. Just spray on your cloths and body before entering your hunting area. Scent Guard leaves no stains on your clothing. It's Organic and safe to use.

Hunter tested and approved

"Amazing product! You don't smell like something else you just don't smell!"

John from Pennsylvania

"The deer don't even know you are there at a ground level blind. No scent no problem getting them in close"

Larry from Maryland

WHAT IS HYPOCHLOROUS?

Hypochlorous Acid (HOCl) is produced in our bodies defense system to kill viruses, bacteria, and fungus. It is proven 120 times more effective than bleach in naturally killing viruses, germs, and mold!

Through our product lines, we are able to bring you this molecule in its purest form so the world can benefit from its certified and tested abilities.

HOW DOES HYPOCHLOROUS WORK?

Hypochlorous acid works by disrupting the cell walls of bacteria and other microorganisms, which causes them to die. It does this through a process called oxidation, which involves the transfer of electrons from one molecule to another. When hypochlorous acid comes into contact with bacteria or other microorganisms, it donates electrons to them, which causes their cell walls to become damaged and eventually leads to their death. This makes it an effective disinfectant and can help to prevent the spread of illness.

WHY HAVEN'T I HEARD OF HYPOCHLOROUS?

Hypochlorous acid has historically been expensive to make, unstable, and inconsistent. Through our patented technologies, we have been able to stabilize the molecule for longer shelf life, continuous efficacy, and affordable pricing.

WANT MORE INFORMATION?

Just click the QR code above or use your camera phone to order or to see more in-depth information on Hypochlorous.

SOIL TEST KIT

EASY-TO-USE SOIL TEST KIT

Have you wondered if your efforts to amend your soil are working, but don't know how to test your soil? You are not alone.

Stoltzfus Mineral Supply and Redmond Agriculture's Soil Test Kit, powered by MySoil, makes testing your soil simple and easy. This test successfully combines accurate soil testing technologies with an easy-to-use customer experience that assists in improving soil and plant health, while effortlessly guiding sustainable practices.

Our goal is to support users in perfecting their soil to grow the healthiest plants possible. This custom approach helps you know exactly what your soils need to thrive. No Ph.D. required.

1. REGISTER YOUR KIT

Once you have received your kit, visit soil.redmondagriculture.com or scan QR code to register.

2. COLLECT SAMPLE

Use a clean shovel, trowel, or coring tool to collect soil to a depth of 6 inches (0⁶-6⁶).

Collect soil from 5-7 separate locations within your desired testing area. (Samples should be free of any large plant materials and other debris).

Composite the collected soil in the test kit box, large plastic bag, or bucket. Mix thoroughly and break up any large chunks.

Use the provided soil scoop to collect 1 level scoop of the mixed soil. Add it to the jar containing DI water and nutrient adsorbing capsule. (Do not dump water out of jar)

Tightly secure lid.

3. MAIL YOUR SAMPLE

Mail your sample within 1 day of adding soil to the jar. Place jar in provided, pre-paid envelope.

Place the envelope in your mailbox or anywhere USPS drop-offs are accepted. You will receive email notifications of sample progress over the next 6 days. You can also log into your dashboard at soil.redmondagriculture.com to check progress.

4. GET YOUR RESULTS

You will be notified via email when your results are ready (6-8 business days from the time the sample was sent) or login at soil.redmondagriculture.com to check sample status.

Results Provide: Available nutrient levels, pH, fertilizer recommendations, application rates, links to recommended products from trusted vendors.

5. AMEND YOUR SOIL

Apply your recommended products at the directed application rates.

Check your dashboard at soil.redmondagriculture.com for helpful insights to maximize the value of your application.

Showtime HEMP PELLETS

Showtime is making a major impact in the sale prepping industry! How does Showtime differ from Restore Hemp Pellets? We have taken the Restore product and added additional ingredients such as more than double the fat content, elevated levels of Vitamin A, D and E, among other ingredients to provide complete nutrition for better hair coat and body condition to help your horse shine like a star in sale or show ring. Try this product and see the difference in your horse!

- Improved Joint Flexibility - Increases Energy - Better Digestion - Healthier Gut

Repro-Life HEMP PELLETS

Repro-Life is providing to be a great addition to our line of products to boost your stallion's performance while enhancing your mare's conception rate. We have once again taken the Restore Hemp and Mineral Pellets and added a powerful nutritional package containing high levels of Vitamin A, D and E, microbials, organic selenium yeast and yucca, among many other ingredients to get your foal started in the right direction for a healthy "new life". The focus in developing this product was to assist in the ever challenging problem for the mare owner of "can I expect a foal, if so, will it be a healthy foal?" Repro-Life is designed to provide the proper nutrition to take the stress out of the reproductive industry.

- Better Digestion to provide proper - Reducing Inflammation - Reducing Inflammation
- Boosting the Immune System - Better Digestion to provide proper - Boosting Semen Quality
- Boosting Semen Quality - Improved Conception Rate
- Providing Highest Quality Nutrition for the brood mare and stallion - Improved Conception Rate

RESTORE CBD HEMP PELLETS

Restore has brought phenomenal results to horses of all ages and for a variety of issues such as, joint and muscle soreness, pain and inflammation, gut health, better digestion and weight gain. Restore now comes to you with a complete mineral and vitamin package to accommodate the many requests in the need to eliminate the multiple brands of minerals needed to get the maximum performance from your horse. So for your convenience we have abiorarcinal as kape with our original hemp pellet and have improved the flavor for youe picky eater as well.

BONE & TISSUE CBD HEMP PELLETS

Bone and Tissue has proven its self in some very extreme cases on horses with some severe joint and mobility issues. This product is a great way to get that extra flex from your horse when good enough isn't quite good enough anymore. This product comes to you fully loaded with all the hemp benefits plus a full vitamin and mineral package to help your horse reach its maxium ability.

HEMP E. OIL VITAMINE OIL

Hemp E. Oil is made using non-GMO, all natural soy containing no preservatives, using human-food grade Vitamin E to promote a stronger immune system and improve the health and weight gain. Along with CBD oil to help with inflammation and soreness issues.

UNLIKE OTHER OILS, THIS PRODUCT IS NOT REFINED, USING ONLY A COLD EXTRUSION TO RETAIN ALL THE KEY NUTRIENTS.
